Lösungsvorschlag für A:

Parents, teachers and so-called experts yet again play the blame game against TV shows and movies which show violence. They argue that TV is the leading cause of violence in today's society.

I disagree with this statement. First, movies and series cannot cause any actions. I have watched many action-packed movies about fights and violence, and yet I have never had the desire to punch¹ or attack anyone.

It may be true that we are influenced by TV and the depiction of violence but the reasons for violent behaviour are manifold. Those reasons range from bad parenting and inadequate schooling to disadvantaged neighbourhoods and gang culture.

To sum up, it is too easy to blame TV only. There are several factors which have to be considered.

¹ to punch: jmdn. schlagen

2. Task A: Job application email

Dear Sir or Madam,

I am a 17-year-old exchange student from Germany and I am spending my year abroad in Canada. Since it is summer vacation, I would like to earn some money. Since we now have summer holidays, I would like to spend a lot of time outside and earn some extra money for my stay in the US. I read about Falls Brook Centre on the Internet and I am very impressed by what you are doing. I see myself as someone who cares about sustainability and that is why I am applying for one of your summer positions. I already have some experience in gardening. Furthermore, I am a very responsible and reliable person who loves to work in teams. I am also an open and communicative person which I think is very important for the job. That is why I am sure that I will fit in quite well with your organisation.

I am looking forward to hearing from you.

Sincerely,
X

Task B: Lösungsvorschlag für B:

The Game of Games!

Football is king! I know there are a lot of outdoor sports but for a number of reasons only football deserves the title of being the greatest game ever. To begin with, this game is famous all over the world. Second(ly), famous football players look like rock stars. Last but not least, football stadiums are huge and sold out for almost all matches in the season.

I play football in my school. I am part of the school team and I am a supporter of Sheffield United, which, in my opinion, is the greatest club in England. I am both a player and a supporter and I love that game because it is a physical game which is played mainly with the legs and the head. I think it's great that there is a league in which many teams compete against each other.

The most exciting thing about football is the stadium visits, especially those at the end of a season. The atmosphere is indescribable and the excitement among the fans is just tremendous. Football is the only sport offering this kind of emotional experience.
